Project Name	Automated Network Request Management in Servicenow
Maximum Marks	2 Marks

Problem – Solution Fit Template

The Problem–Solution Fit

The **Automated Network Request Management in ServiceNow** project addresses the challenges organizations face in managing network-related service requests. Traditional request handling involves manual processes that often result in delays, approval bottlenecks, lack of transparency, and increased workload for IT teams. This solution automates the complete request lifecycle using ServiceNow's Service Catalog, Flow Designer, approval workflows, and email notifications, ensuring faster request processing, improved user experience, and efficient IT operations.

Purpose

- Automate the network request process to reduce manual effort and processing time.
- Enable users to submit network service requests through a simple self-service portal.
- Improve request tracking with real-time status updates and automated notifications.
- Streamline approval workflows to ensure faster decision-making and SLA compliance.
- Reduce repetitive tasks for IT teams, allowing them to focus on high-priority activities. ● Increase transparency, reliability, and efficiency in handling network service requests.
- Enhance customer satisfaction by providing a user-friendly and automated request management system.
- Support organizational productivity by delivering secure, accurate, and timely network services.

Problem – Solution Fit Template

Project Title: _____ **Date:** _____

Prepared By: _____ **Version:** _____

PURPOSE

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- Understand the existing situation in order to improve it for your target group.

1. PROBLEM

1.1 Customer Segment
Who are the customers facing this problem?

1.2 Problem Statement
What is the exact problem your customers are facing?

1.3 Current Impact
What are the effects of this problem on your customers?

1.4 Existing Alternatives
What solutions are they using today? Why are they not satisfied?

1.5 Root Cause
What is causing this problem to exist?

PROBLEM – SOLUTION FIT

How well does the solution address the real problem of the customer?

2. SOLUTION

2.1 Proposed Solution
What is your solution to the problem?

2.2 Key Features
What are the main features of your solution?

2.3 Benefits to Customer
How does your solution solve the problem for the customer?

2.4 Unique Value
What makes your solution better or different?

2.5 Success Measures
How will you measure if your solution is successful?

3. EVIDENCE OF FIT

Evidence Type	Description	Source / Method	Key Findings
Customer Feedback			
Survey / Interviews			
Prototype Testing			
Usage / Behavior Data
